Experiences:

Al-Khidmat Foundation Pakistan

Paid Remote

Web Developer Intern - Media and Marketing Department

12th May, 2025 - Current

- Built a full-stack E-commerce website using React, Tailwind CSS, Express, MySQL, and Firebase Authentication (Email + Google).
- Designed a responsive UI with custom loaders, product filters, cart, wishlist, and order management system.
- Developing a CMS Web Application (Next.js + MERN) with Role-Based Access Control, pages/blog/events modules, and file uploads using Multer.
- Learning and implementing Redux, Next.js dynamic routing, and reusable responsive layouts for scalability.

Internship Pakistan

Remote

Frontend Developer Intern

1st Nov - 31st Dec, 2024

- Built a minimalist portfolio using React.js & Tailwind CSS with animations, smooth scrolling, and shadow effects.
- Created an e-commerce site featuring a waving effect, structured product listings, and footer design exploration.
- Created MoniLoft, a static mobile marketplace with filtering options and animations for enhanced UI.
- Designed a hostel listing site (Next.js) with an optimized display and a neutral color theme.
- Built Karachi Hostels Dashboard using Next.js, Ant Design & Recharts for interactive data visualization.

Qwerty Experts

Lahore, Pakistan

Custom Web Development Intern

Aug - Sept, 2024

- Cloned VisaBridge homepage using React & Tailwind CSS, mastering flex & grid layouts while adding animations.
- Converted a Figma design to Next.js, ensuring pixel-perfect positioning and integrating React Charts for dynamic data.
- Constructed a Blog App with CRUD operations, implementing Fetch API, Axios, and Next.js API routes.
- Created an interactive navbar with scroll-based background changes, an up-arrow button, and Slick Carousel for smooth content transitions.

Programmers Tech

Remote

Web Development Intern

1st July - 31st July, 2024

- Built my first portfolio with HTML, CSS, JavaScript, exploring animations & hover effects.
- Established a multi-page e-learning website, curating free computer science courses with efficient data handling.
- Implemented a pure CSS carousel for testimonials, refining animation techniques and responsive UI.
